COIZ: 50 Years of Growth, Development and Manufacturing

Established in 1976, Çerkezköy Organized Industrial Zone (COIZ) is one of Türkiye's long-established and significant industrial manufacturing centers. Strategically located in Tekirdağ, connecting Europe and Asia, COIZ contributes to the Turkish economy through its strong infrastructure,international investors, skilled workforce and high-value-added manufacturing ecosystem.
As it marks its 50th anniversary, COIZ integrates its manufacturing and export capabilities with environmental responsibility, resource efficiency, digital transformation and sustainable development.

Looking Ahead and Building Partnerships

Transforming the Future of Industry Together
COIZ's 2026–2030 strategy aims to accelerate the green and digital transition, foster innovation and workforce development, and strengthen disaster resilience and business continuity.

Green and Digital Transformation
As a partner in the EDIH West Marmara consortium, COIZ supports the transformation of participating companies through digital maturity assessments, COIZ Academy training programs and Sustainability Platform site visits.

Our Message to the World from COP31

The future of climate-friendly industry goes beyond the transformation of individual companies; it lies in the collective development of industrial ecosystems strengthened by shared infrastructure, knowledge and sustainability goals.

2026

Environmental Performance and Green Transformation

First Gold-Level Green OIZ

Under the Green OIZ Certification System administered by the Ministry of Industry and Technology and the Turkish Standards Institution (TSE), COIZ achieved Silver level based on its 2023 performance and Gold level based on its 2024 performance, becoming the first OIZ in Türkiye to reach Gold level.

Climate and Carbon Management

COIZ has prepared greenhouse gas inventories for 2023 and 2024 in accordance with TS EN ISO 14064-1:2019. It aims to reduce Scope 1 and 2 emissions by 50% by 2030 against a 2023 baseline and achieve carbon neutrality by 2050.

Water and Wastewater Management

With a centralized industrial wastewater treatment plant with a daily capacity of 80,000 m³, COIZ strengthens its environmental infrastructure and supports the sustainable use of resources through water efficiency and wastewater recovery initiatives.

Energy Efficiency and Renewable Electricity

The ISO 50001 Energy Management System supports continuous improvement in energy performance. Including the solar power plants currently operating in the zone, 20% of total energy is green energy.

Sustainability Is Part of Our Corporate Governance

Çerkezköy Organized Industrial Zone (COIZ) approaches sustainability through an integrated management framework encompassing environmental, economic and social responsibilities. Our sustainability strategy rests on four pillars: Environment and Climate; Innovation and Digitalization; People and Society; and Disaster and Crisis Management.

Our 2018 and 2024 Sustainability Reports, activities under the United Nations Global Compact and international management standards reflect our institutional commitment to sustainability.
Our sustainability reporting activities began in 2018. Our first GRI Sustainability Report, prepared using 2024 data, was the first of its kind among organized industrial zones.

> *For COIZ sustainability*
>
> *is a management approach that supports industrial competitiveness and future readiness.*

COIZ Social Sustainability Initiatives

As part of our social sustainability efforts, our Private COIZ Vocational and Technical Anatolian High School contributes to the development of a skilled workforce, while our ZEKA Project supports employment opportunities for individuals with mild intellectual disabilities. We also create value through the COIZ Search and Rescue Team, the COIZ Fire Department and the COIZ kindergarten. Through COIZ Academy training programs, COIZ Sustainability Platform activities and social and cultural events, we promote knowledge sharing, community solidarity and inclusive development.
